Nursing Pharmacology Made Incredibly Easy (Incredibly Easy! Series®)

Synopsis

Nursing Pharmacology Made Incredibly Easy, 3rd Edition, provides the nursing student and practicing nurse with important information about how drugs act and interact in the treatment of disease. This essential pharmacology reference focuses on the mechanisms of drug action; details specific drugs by pharmacologic class; reviews the nursing process related to each drug category for all body systems, plus pain medications, anti-infective drugs, and cancer drugs; and highlights potentially dangerous interactions, including drug-herb interactions. It does all of this in the award-winning, lighthearted Incredibly Easy style that makes intimidating concepts thoroughly approachable. This completely updated third edition includes the most current NANDA diagnoses and covers Pharmacokinetics, pharmacodynamics, pharmacotherapeutics, interactions, adverse reactions, and nursing process considerations for each drug. If you are still learning, Nursing Pharmacology Made Incredibly Easy will help you master complex subjects in minutes with Quick Quizzes at the end of each chapter to gauge learning and special elements found throughout the text to make it easy to understand and remember key points and information, including: A "Before you give that drug" icon that calls out important warnings that should be considered before administration "Just the facts" -- learning objectives at the beginning of each chapter An "Education edge" icon that highlights patient teaching information
