Customer Reviews

I'm not a huge fan of oracle stories. I got this book though to personally know why a friend of mine finds runes and magic adventurous. She even asked my company to visit a fortune-teller. As I go through the pages, this seems interesting. It tells about runes' history. It also answers confusion between magic and runes. I like the interpretations on Futhark. Among the eight groups, I remember Fehu F for abundance and An suz A for wisdom. It's exciting to learn their symbols and meanings. I like that it emphasized, while runes are known to show path and potential outcome, this is just a guide. And if I may add, for centuries, this is part of history worth knowing.

I think this has been an educational reading experience for me. In fact, this is the first time that I have read about Runes and I must say that I had been enlightened. The book told me what Runes are all about, that they are alphabetic scripts that are used for magic and divination. How cool is this? And I got amazed at how they can be used endlessly too, with different purposes and occasions. And I think this book has been well-researched in order to give readers the proper info that they deserved.

I have been interested in runes for a while now but I didn't know much about them until I read this book. This book had a lot of good information and I learned everything I wanted to know about runes and much more. I definitely recommend this book!

This book is awesome. It has enough proof to back up its point. It started by giving a brief history about runes and then explain in details what runes is all about. The book also gave meaning to each alphabet or symbol in runes and what they stand for. I have never read something of this name before in my life. Having the opportunity to do so is amazing and transforming. There is so much to learn and understand from this book, with graphical images to describe it as well.

This book is helpful and by the help of this book I have learned about Runes, Celtic history and much more. Actually, I am a rune fanatic and also a beginner. A few weeks ago, my friend suggested me about his book this rune magic book and for that reason I purchased this book. By reading this book I have understood about runes symbols and meanings. I had a huge curiosity about Runes magic and I am also a rune fanatic. Runes are alphabetic scripts and we can use this power for protection, communication and much more. By the help of this book I have learned about how to tackle this powerful tool. The author of this book has described every guide very clearly and this book provided me tons of informative lessons. By reading this book I am pleased and if you

have any interest to know about Runes then this book is perfect for you.

This is quite fascinating on behalf of me on understanding additional however runes will really be integrated into one's life. Its history method back was tackled alongside its eight teams of character letters I even learned that runs have useful because it will aid in fortune telling. As their square measure, several versions of character alphabet every has variations in names, shapes, cabalistic meanings and switching uses. totally different forms of runes were in an elaborate way mentioned along side however it will be advantageous in fortune telling and communication. Overall this can be AN informative book depiction runes importance in our life these days.

This book has informed me a lot about runes, its history and origin, and its significant uses in a more profound way. Also, it has kept me interested in making my own set of runes and learn how to cast them. Undeniably, the many practical uses of runes are somewhat controversial but I sense a different kind of magical depiction in using them that could strengthen my convictions in life. I am not saying that I could totally rely on the results of such uses of runes but I could practically use them in chartering a positive course of my life. Lately, I have somewhat lost my own bearings in life and this book could guide me in taking a significant step at the fork of the road.
