Customer Reviews

When I started this installment in the series, I was really shocked to see that it was already book 12! I have grown to love these characters and to feel like I know them. Time has flown by while I was having fun reading them :) Despite the number of books in the series, things always seem new and fresh, and the story just keeps building on itself. This book was different though, Moira does not find a dead body and is not part of solving a case yet she still is in danger and doesn't know why or from who. She is suddenly the target of someone. She (and her pets), her car and her house are all targets from the threats and it's pretty scary. But why? Not to mention all of the other things going

on. Candace is on vacation with her friend who is also one of Moira's employees, David's mother is visiting and she finally meets her, and someone wants to buy the deli. David's past is pretty much a secret to Moira, she realizes that she knows almost nothing about him. She has recently just met his sister in the last book when she thought David has possibly been seeing her but it seems like they hit it off. His mother however is another story though, she thinks Moira is a trouble maker and makes Moira feel like she doesn't like her. David suddenly starts acting strangely and she wonders if it's because his mother really doesn't like her. She's even more shocked when she finally gets the chance to tell him about the unbelievable amount she is offered for the deli and he tells her she should take it and move to Florida. Is he really giving her the brush off? Then there are the threats. And a stranger wanders in the deli after it's closed but Moira still finds herself liking this man and having coffee with him.
