Spirituality #189 in Â Books > Religion & Spirituality > New Age & Spirituality > Wicca, Witchcraft &

Paganism > Wicca

Customer Reviews

This was a very interesting book. I've never done anything witchcraft related before and this book was a cool way of jumping into it. I believe the charms work because they set out your intention into the universe and as a result everything lines up into place and gives you what you desire.

Thankfully this book is full of these spells for that purpose.

A great little book packed full of spells and practices for anyone interested in art of witchcraft. In this

book you will find tidbits of information on the history of witchcraft as well as numerous spells relating to the three things that are most important to most of us: health, wealth and love. You will even find advice on the types of tools and props you may need for some of the spells as well as tips on how to acclimate yourself to the Wicca lifestyle. I highly recommend this book to anyone involved with or just curious about the powerful world of Wicca.

I think "Little black book of spells" would be a more accurate description. There's only a handful of each type. I was kind of disappointed also that I got the impression the spells were new or not well-known, but they're pretty basic. Most definitely you get what you pay for. I give 2 stars because the info is good for someone looking for a simple starting place in learning about magic. So, if you're a beginner it's a great book.

Too fluffy for my taste

somewhat informative but hoping there was more to it. but for 99 cents can't really complain
