Customer Reviews

For those who complained about the 'lack of cultural depth' in *Awakening*, this supplement will change all of this misconceptions. *Magical Traditions* introduces the idea that at least some Mages draw on real world occult practices, whether out of genuine belief or sheer pragmatism. The first section of the book, in fact, goes into detail about how (and why) to incorporate various mythologies, occult traditions, paranormal phenomena and folklore into your *Mage* game, as well as introducing options for changing the setting. Most important is the *Magical Tradition Merit*, which gives concrete benefits for adherents of a particular Tradition. The rest of the book is filled out with several sample Traditions, but the guidelines are easy enough that with a bit of research (even just wikipedia or your local library) you can easily make up new ones wholecloth. Each section includes not only details on the belief system (adapted for the cosmos of *Mage*) but also some new Rotes and a sample NPC as well. First we are presented with 'traditional' beliefs, those from ancient times such as Hebrew kabbalah (complete with golems and correspondences on the sefiroth) and Taoist alchemy. Next it moves on to more modern beliefs such as Santeria (which recieved a very well-detailed chapter, I might add), the secret rites of the Knights Templar, and THEOSOPHY! Finally, the book closes with two 'fringe' Traditions - Appalachian Hoodoo and New Age ethnogenic cults... The former being the rich folklore and superstitions of the South, while the latter is hippie

psychodelia, McKenna-esque shamanism, and even UFO cults. All in all, a very well done book in my opinion. It certainly adds another layer of complexity to Mage.
