Customer Reviews

If your interested in a life filled with scientific jargon then this book is not for you. Mr. Steiner spent his life studying the non-scientific method, he was a spiritual man and wrote his books without hiding hiding the meaning.

One of the most useful of Rudolf Steiner's short books in my opinion. Clear and concise. As relevant today as when it was written.

Truly a roadmap to more self knowledge. Not a very long read so it's more of an intro to self knowledge. It's a short, yet difficult read so don't expect to blaze through it or just read it once if you're new to Rudolf Steiner books. I like the questions this book asks.

This book pointed-out some information I've been feeling inside of me since a young man. I've always felt something stirring within me; that I must find answers to.
