Customer Reviews

Great audio to compliment the book - I do better with audio when going through a meditation - rather than reading a few sentences, doing that for meditation, then opening my eyes to read more, then doing what it says...and so on - if you have the book - you need the CD :)

I purchased this in audible it really needs a downloadable pdf to explain some items. That is my only issue .

Simply Amazing. I simply love Diana Cooper and Tim Wild. My husband and I have gotten amazing experiences with the meditations and continue to use them

Love this CD.
