Child Of The Sun: Psychic & Physical Rejuvenation In Alchemy And Qabala (IHS Study Guides Series) (Volume 3)

Synopsis

Child of the Sun is a comprehensive text on the effects of spagyrics, alchemy, and qabala on the psychic and physical bodies. Written in clear and precise language, the theory and practice of psychic and physical rejuvenation is presented so that both the specialist and beginner can understand how to undertake these unique practices. Child of the Sun breaks new ground by presenting highly specialized material on the Seventy-Two Angels of the Great Name and how to contact them using a ritual from the French Martinist tradition; the importance of Dream Yoga, or Lucid Dreaming in the rejuvenation process; the use of spagyric tinctures as well as mineral alchemy; a little known experiment with antimony; uses of the Middle Pillar exercise in physical and psychic health; the role of blood in personal transformation; and more. The material presented here is not a literary creation or academic theory, but has been demonstrated by those who have undertaken their practice. Child of the Sun is a true friend and guide to students of the Hermetic Arts and Sciences, and all who undertake the Great Work.

Book Information

Series: IHS Study Guides Series

Paperback: 274 pages

Publisher: CreateSpace Independent Publishing Platform; First Edition edition (December 13, 2015)

Customer Reviews

StartlingIn a word, startling. I am familiar with Mr Stavish's work and esotericism in general both east and west. Even being relatively well read and practiced I find myself startled by the breadth of information, the integration of the presentation and the challenge and promise of the Work within Children of the Sun. One great strength of the book is the specificity. The methods supplied are very specific with specific stated outcomes. These outcomes are, much like the siddhis, indications of progress on the the Path rather than the Path itself. Often functioning as a comparative study of

methodologies the text still manages to avoid jargon and self reference. This lack of jargon only can come from understanding and practice, both of which the author demonstrates. The work of spiritual self creation is discussed, outlined and placed in grand historical context. The text is a link in the great chain of tradition that all true seekers will place themselves. There are many new insights, or at least new to the general public as these teachings are normally hidden from public view. The exercises on the angel work of the Shem seem clear and intriguing often undoing decades if not centuries of obfuscation. The correspondences of the psychic centers across traditions alone is worth the cost of the text. The examination of blood is cogent and magically important and clarifies a great many misperceptions arising from some left hand practitioners. There is almost a "rescuing" of blood from a major mistaken deviation in tradition. All of this and much more are openly discussed. Importantly, the information is woven together with a curriculum of practice. There is a sense of timeliness and cultivation of the awareness of the realities of this passing life.
