# The Adventure Of Being Human: Lessons On Soulful Living From The Heart Of The Urantia Revelation

## Synopsis

Amplifying the core spiritual teachings of The Urantia Book--a unique and thrilling revelatory book first published in 1955--this guide introduces the two central deity-personalities of the Urantia revelation: Christ Michael--Jesus--and his feminine, coequal consort, Mother Spirit. As the study relates, these two deities maintain intimate contact with their sons and daughters, demonstrating their love through an unprecedented series of teachings. In one short volume, this compilation chronicles Jesus' own awe-inspiring lessons--updated for the 21st century--along with essential introductory and background materials. The wisdom provided here offers heartfelt instructions on the art of living, making a challenging cosmological reference concise and accessible.

## Customer Reviews

The Adventure of Being Human, transmitted and introduced by Jerry Lane is one of those books that can leave you speechless for many reasons. Building on the colossal work known as The Urantia Book, it continues the tradition of channeled information and offers us more than can be grasped by the logical mind. If one accepts this material as authentic, there is a wealth of poetic content, attributed to the beings known historically as Jesus and his mother Mary. In the context of The Urantia Book, these beings are literally our spiritual "parents" who have gone by a variety of names but remaining cosmic creators inhabiting vast reaches of what could be called our galactic neighborhood. For those who do not completely accept this as gospel, the book will hold less appeal but there is none-the-less, a rich collection of writing that ranges from beautifully well written to

absolutely astonishing in a way that I think most open minded readers will be challenged to explain away. The subtitle is "Lessons on Soulful Living from the Heart of the Urantia Revelation" and as such, it absolutely delivers, in marvelous style. The question naturally arises, if this isn't actually the direct expression or communication from two cosmic creators, who claim to be our Parents, then how does one make sense of the obvious quality and passion? Leaving aside the question of authenticity, because ultimately this is a personal decision, we encounter a book of substantial wisdom encompassing a vast vision. The editor states the primary purpose is to "amplify the core teachings of The Urantia Book" and of course it succeeds completely.
