Customer Reviews

It's very short but very informative. Perfect for a new Muslim because it inputs the bare one basics that need to be learned or worked on before anything else. Very handy! It's good for any Muslim even to just brush up on what you already know.

Honestly it was a good start for me! I found it really helpful and neatly explained. It's a simple guide who easily illustrates the fundamental steps to follow on how to become a good muslim. I recommend it if you want to start somewhere!

I run a convert organization and found this line of books is great because it's a quick reference to essential and fundamental information. However, this book has some overlap when it comes to prayer with the "How to Pray" guide by the same publisher.

I'm not a muslim, I just read the book out of interest for the religion. It is a very clear book with

instructions for people who have just converted. It is very short, can be read in an hour or two. Do not expect any deep analysis, just instructions how to pray, how to dress etc, really very practical.

This really helps one to fully understand what to do once you have accepted Islam.

This is a very short introduction to Islam, it contains useful information on how to pray, common phrases used and information on core Islamic beliefs and traditions. It's perhaps a good starting point for a new Muslim but it lacks more information, the prayer chapter is surprisingly short and much better information about praying is available online (for example on YouTube). Overall it's a acceptable short introduction to Islam, but not much more than what you could find online or by asking a Muslim friend.

The simple step by step guidelines are very clear and helpful for beginners like me to really understand and appreciate the little things

Nice read and disciplined write up. Liked it a lot. I think more people shd read it and practice it
