## Customer Reviews

Bought this lemon after 20 seconds of consideration. A better title would be 'Selected Readings in Parasitology for the Armchair Academic'. No relevance for the practicing clinician(I'm in Quillabamba Peru). No diagnostic/exam help, no organized format from chapter to chapter, medication prescribing information spotty, nil use of art/drawings(maybe 6 'plates' thrown in the back pages). Change your 190 bucks into small bills and make a fire on a cold day, a far better return on investment.
