Turbulent Mixing And Chemical Reactions

Synopsis

Turbulent Mixing and Chemical Reactions Jerzy Bałdyga, Warsaw University of Technology, Poland John R. Bourne, Visiting Professor, University of Birmingham, UK and Emeritus Professor, ETH Zurich, Switzerland The way in which reagents are mixed can greatly influence the yield and range of products formed by fast, multiple chemical reactions. Understanding this phenomenon enables chemists to carry out reactions more selectively, make better use of raw materials and simplify product workup and separation. Turbulent Mixing and Chemical Reactions presents a balanced treatment of the connection between mixing and reaction. It contains theoretical aspects, experimental methods and expected results as well as worked examples to illustrate problem solving. This book will be of interest to all scientists involved in chemical engineering, physical chemistry, and synthetic chemists in the fine chemical and pharmaceuticals industry.

Book Information

Hardcover: 890 pages

Publisher: Wiley; 1 edition (February 24, 1999)

Language: English

ISBN-10: 0471981710

ISBN-13: 978-0471981718

Product Dimensions: 6.5 x 2.1 x 9.3 inches

Shipping Weight: 2.8 pounds (View shipping rates and policies)
